Date:	1/19/2022
Location:	Teams meeting
Attendees:	Allison Sickels, Emily Downing, Jasmin Volkel, Kathy Johnson, Liz Lobaton, Thadeous Carr, Thurston Alexander-Smith, Vanessa Kopp
Score Card Results: **Challenges/Thoughts**	
WellSky	**Cons**-Misinformation on capabilities of the system during the call. Inadequite at transferring systems. Struggle to meet HUD requirement deadlines. Lacks customizability. **Pros**- adequate at meeting HUD standards.
Social Solutions	(**5 members voted Social Solutions in their top 2**) **Pros**- Mobile friendly, adding other referrals in to other Systems outside of Homelessness Response, ability for day services, user licenses. Referral notifications built in. Built in conditional logic. On screen ability to give consent. Ability to bring in other program forms and add them in. More options for case management. Can track time between events. Running reports on average amount of time. **Cons**-Interface looked less configurable (the flow of the work itself, structuring what is static vs. dynamic).
Foothold	
Bit Focus	(**3 members voted Bit Focus in their top 2**) **Pros**- work flows for CE were built in, templates or customizable (flexibility) In system messaging that can be combined with email, built in logic, DQ alerts, eligibility options and filters, tracking encampment abilities. Referral timers/filters. Ways to connect to other databases. **Cons**- children can be head of household's (alerts can be created but concerns on it being dismissed), would like to know more about data input tool
Case Worthy	
Eccovia	Pros- frontline focused and case management abilities. Revisit what was documented previously for updates, consistency from having a template, ability to cut and paste notes, upload docs to client records.
next steps	Bit Focus and Social Solutions references will be contacted. References will be shared out by Vanessa or Jasmin via email. An electronic vote will be completed amongst group to decide which software will be finalist. Request contact with familiar faces and how they partner with data warehousing and data sharing projects.
	Jasmin will request a single summary page of licensing structure for top two and price structure breakdown for the top two for initial and 3 year plan
	Next meeting Wed.Feb 16th, 10AM
